
Contraception options

Contraceptive pill

To have the contraceptive pill you will need to book a consultation. We will discuss your contraceptive options, the most appropriate pill for you, along with its use and side effects. We can provide a prescription for a maximum of 6 months.

Costs

If you are aged between 17 and 26 this will be free of charge.

Otherwise, it will be normal consultation charge of €70 every 6 months

Coil or Intra Uterine Device (IUD)

To be fitted with an IUD you will generally have an initial consultation to discuss contraceptive options. Once you have chosen an IUD you can be booked in to get swabs done prior to insertion. When results are back you can book for insertion of IUD. IUDs can last up to 6 years.

Costs

If you are aged between 17 and 26 this will be free of charge.

Initial Consultation	€70
Consultation and Swabs	€100
IUD insertion (initial)	€200
IUD removal and insertion (every 6 years)	€250
IUD removal (on completion)	€150

Patient Information

An information leaflet is available here: <http://blackrockmedicalclinic.ie/wp-content/uploads/2022/09/IUD-patient-information-final.pdf>

Implant

To be fitted with an implant you will generally have an initial consultation to discuss contraceptive options. You will then be booked in to get the implant fitted. Implants last 3 years

Costs

Initial consultation	€70
Implant insertion (initial)	€150
Implant removal and insertion (every 3 years)	€200
Implant removal (on completion)	€150
